Compact homelift by Stannah

Stannah

Enjoy the ultimate luxury  
in your own home...

The Stratum S

Imagine the convenience and luxury of a lift in your own home. A lift that takes up surprisingly little space and that makes life so much easier from the moment it's installed. Whether you have an immediate need for easy vertical access or are looking to the future, our Stratum homelift simply allows freedom in your own home.

At Stannah we have been providing lifts for generations, in fact for over 150 years. Since those early years we have been constantly innovating in order to help make our customers' lives that little bit easier. Bringing together tried and trusted engineering with the latest in lift product design, our Stannah Stratum offers total accessibility and luxury rolled into one. Discover why our Stratum lift is our most popular choice for future-proofing a home.

**Welcome to the Stratum**

## Make travelling between two floors so much easier

The Stratum S FE

The Stratum homelift has been designed to be as flexible to install as possible. Its self-supporting structure means that it doesn't require any major structural alterations for it to be installed and can be fitted practically anywhere in your home. There's no lift shaft, so your Stratum homelift looks stylish and compact when it is in the room and leaves a feeling of space when it is sent up or down.

With a range of different cabin sizes and customisable options, you can tailor your Stratum to suit your lifestyle and your home.

30 minutes fire integrity between upper and lower floors, whether the lift is parked upstairs or downstairs, including smoke detectors

- Elegant innovative design with five footprint options, full or half-height cabin and finished to complement your home
- Various cabin sizes available suitable for a wheelchair user or up to 2-3 people standing
- Moves between two floors
- Back-up battery pack allows return to the ground floor in the event of a power failure
- LED lights in the side panels light the inside and outside of the lift car
- Wireless wall controls make calling the lift between floors easy

Lower room when your Stratum is upstairs

Upper floor when your Stratum is downstairs

#### Standard features:

- Powered door for easy entry/exit (not available on Stratum C model)
- Option of left or right handed opening door
- Scratch resistant safety glass windows
- Pressure sensitive surfaces stop the lift if obstructed from above or below
- Grey back panel with matching carpet (fully enclosed models only)
- Painted satin white exterior
- Shallow ramp allows easy access to the lift car

#### Optional features:

- Hand held remote control
- Joystick control
- Fold up seat (supplied with grab rails)
- Grab rails
- Telephone fitted into cabin (fitted as standard on FE model, subject to availability of landline)
- Mirror to back panel
- Heavy duty 250kg padded seat
- Choice of paint colour (RAL)

# Unrivalled service from Stannah

## Stress-free installation

You can relax from the moment you choose your Stratum, simply rely on us to make the whole process as smooth as possible. Your sales engineer will arrange a site survey to establish the best position for your lift and arrange any pre-installation building work in preparation for your lift. Our expert Stannah installers will agree installation at a time to suit you. This may take up to several days, depending on your unique requirements, and only once your home is looking perfect will your lift be handed over to you, to enjoy every day.

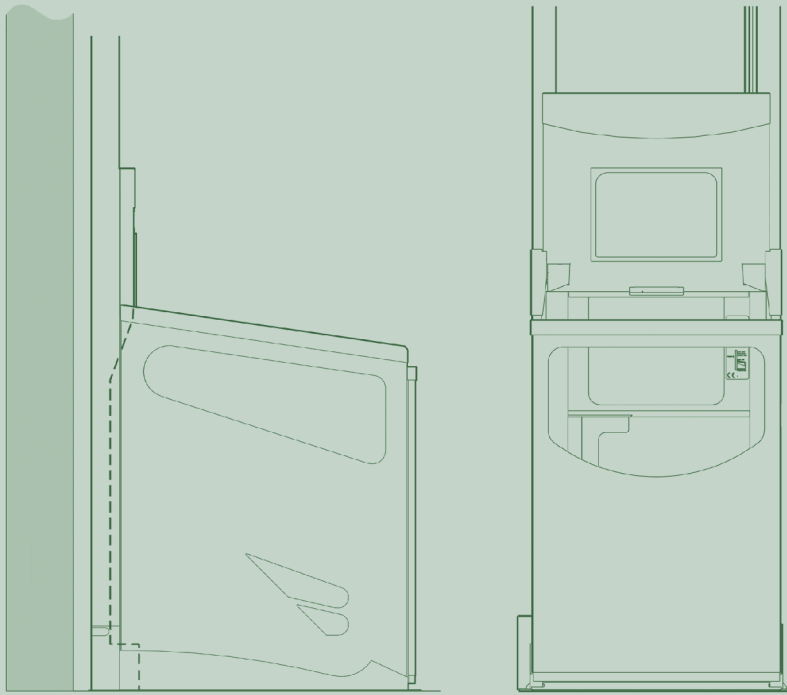

## Continued care

At Stannah, after-sales service is our business too. We look after more than 90,000 lift products across the UK from eleven local service centres, nationwide, so a Stannah service engineer is never far away. Your new Stratum homelift is supplied with a two-year warranty for your peace of mind. This includes two service visits. When your homelift warranty is due to end, your local service branch will be in touch with details of our service plans. Just like your car, your lift needs a little engineering expertise to keep it working to its full potential. For additional peace of mind, our own UK-based call centres are available 24/7 to offer practical, helpful support around the clock.

Welcome the Stratum into your home...

## A guide to sizes (Stratum S shown)

Maximum travel: 3,600mm (dependent on specification)
